INITIAL SEASONAL FLU VACCINE QUESTIONNAIRE

If you would like to order the 2011/2012 seasonal flu vaccine, please indicate the number of doses below. There does not appear to be a shortage of flu vaccine this year.

The County has indicated that it will not provide vaccine this year.

The price per vial will be approximately \$80.00 for multi-dose (10) and \$56.00 for single dose (5). We will call and verify the quantity and price of your order prior to delivery.

FACILITY NAME: _____

Signature of person ordering/authorizing request: _____

Print name: _____

_____ # of doses for RESIDENTS
(in multi-dose vials)

_____ # of doses for STAFF

_____ # of doses as single dose syringes

Keep in mind that payment is a little more complicated now than in the past. Physicians may not want to provide doses directly to some residents. Medi-Cal will pay for the vaccine but most insurance providers require the resident go the clinic or the physician's office. Some facilities may offer it to residents or charge a small fee.

The pharmacy will bill for the vials as house supply, crediting any doses that are paid by insurance.

If you have any other questions please contact the pharmacy directly at 858-652-6900
